1 Acknowledgments

The authors thank Deirdre Loughnan, Hoai Huong Nguyen Phan, Frederik Baumgarten and Victor Van der Meersch for conversations, ideas and review to help bring this project to fruition. Additionally, we thank Xiaomao Wang and Christophe Rouleau-Desrochers for their help and patience in operating TIM during development.

2 Author Contributions

EMW and AF conceived the ideas. AF, CC, WC wrote the software. AF reviewed LLM generated code. AF designed and assembled the hardware. YZ applied the deep learning models to the images. EMW and AF led the writing of the manuscript. All authors contributed critically to the drafts and gave final approval for publication.

3 Conflict of Interest Statement

The authors declare no conflict of interest.
